BioHeme

Iron bisglycinate enhanced with Lactoferrin

Pack Size: 30 hard capsules.
Dosage: Take 1 capsule daily with water, or as directed by a healthcare practitioner.
Storage Guide: Store below 25°C in a cool, dry place. Ensure lid is properly replaced after use.
Warnings: Not for the treatment of iron deficiency conditions. Lactoferrin is derived from cow's milk. Vitamin and/or mineral supplements should not replace a balanced diet.

Often used in conjunction with:

- Natal Care
- BioActivated B
- BioTress®
- BioFem®

Contains ferrous bisglycinate

BioHeme contains ferrous bisglycinate; a patented form of non-haem iron.

Product Highlights

- Enriched with lactoferrin; an iron binding glyco-protein
- Convenient one-a-day formula
- Low excipient, vegetarian capsule
- Gentler to the gastrointestinal tract
- Strictly Practitioner Only

Each BioHeme capsule contains:

Iron (II) glycinate	88.3 mg
equiv. Iron	24 mg
Lactoferrin	100 mg
Ascorbic acid	100 mg

Product Indications:

- Helps prevent dietary iron deficiency.
- Iron helps in the production of healthy red blood cells, in the formation of haemoglobin, and in oxygen transport within the body
- Vitamin C assists with the absorption and metabolism of iron
- Iron plays an integral role in the production of energy
- Vitamin C is an antioxidant which helps to reduce free radical damage to body cells
