Premium European pea protein fortified with functional ingredients at a supportive dose to make achieving specific health goals on a plant-based diet a whole lot easier!

Protein Greens + Berries

- 20g protein
- 8 Greens and Herbs
- 11 Berries and Fruits

Protein + Microbiotics

- 20g Protein
- 1 billion CFU shelf – stable microbiotics
- Up to 4g fibre

Protein Greens Plus Berries

Functional solutions for busy lives

Designed to reduce the steps to the perfect nutritious smoothie, Protein Greens + Berries has a base of European Golden Pea protein isolate mixed with organic alkaline superfoods and phytonutrient-rich berries. An ideal product to complement diets deficient in vegetables and berries.

The green superfood blend is a valuable source of naturally occurring phytonutrients, vitamins and mineral, and helps support energy and pH balance.

The berry blend is bursting with potent plant compounds like resveratrol, xanthones, carotenoids, and flavonoids like anthocyanins. Berries also contain an array of vitamins, minerals and fatty acids.

- One serving contains **20g protein**
- **8** Superfood greens
- **11** fruits and berries
- **Clean** ingredients
- **Water- based** isolation process
- **Nothing artificial** with no fillers, preservatives or processing aids
- Good source of **Iron**

Protein Plus Microbiotics

Functional solutions for busy lives

Designed as a protein smoothie mix to support the microbiome, Protein + Microbiotics has a base of European Golden Pea protein isolate fortified with 1 billion CFU shelf- stable Microbiotics in the form of Bacillus Coagulans.

One serving of Protein + Microbiotics contains 20g protein. An essential macronutrient for growth and repair, protein also contributes to feelings of fullness and satiety, making it an ideal base for a nutritious and satisfying on-the-go smoothie.

- One serving contains **20g protein**
- **Delicious** taste
- **Clean** ingredients
- Provides **Fuel** to help keep the intestinal flora fed and happy
- Helps to **signal fullness** and **regulate blood sugar**
